Puristic is an **easy and portable** Chlorine Dioxide fumigating device that effectively removes bacteria and viruses to create a **clean and safe** environment.

**Safe**
- Safety acknowledged by the FDA, WHO and NASA.
- **Top safety grade** (A1) comparable to salt and sugar.
- Safely removes bacteria in food and water.
- Harmless to the human body.

**Strong**
- 2.5 times stronger than chlorine based disinfectants.
- **500,000 times stronger than alcohol.**
- Puristic has a much stronger bactericidal effect when compared to conventional disinfectants that use chlorine, ozone, bromine chloride, chloramine, etc.

**Green**
- Zero by-products from disinfection.
- Chlorine generated carcinogens (THMs, HAAs, etc.) are not produced by Puristic.
- **Outstanding Photodegradability.**
- No residual materials from light decomposition.

**Clean & Safe Sterilizing Disinfectant**

**Approved by FDA & WHO**

EPA & FDA Approval
Sec.173.300 Chlorine Dioxide
[CITE:21CFR173.300]
**Features**

- Removes **99.9%** of viruses, bacteria & fungi
- **Deodorizes** the immediate area around it
- Able to sterilize hard-to-reach places
- Effective up to **20 days** and harmless to the human body

**Usage Locations**

- Refrigerator
- Storage
- Living Room
- Fitness Center
- Sport Equipment Bag

**Keeps food fresh longer**

- **With PURISTIC** | 10 days after expiry date
- **Without PURISTIC** | 10 days after expiry date

**Restaurant** | **Kitchen** | **Greenhouse** | **Operating Room** | **Shipping Container**

**Instructions**

1. Allow the glass container inside to slide to the thin end of the stick.
